

Esther and her New Outback April 2, 2006 J2W meeting

Testimony sent to us March 4, 2006

God's blessings upon you,

An all Loving Spirit woke me up at 4:40 ish this morning because He had much to reveal and found no reason to wait. How cute is that? His joy and excitement to be with me instantly filled my heart with Love for Him and gratitude for everything. It is such a privilege to awake every morning longing for my time of praise, worship, prayer and meditation upon His Word.

It was only a couple of months ago overwhelmingly trapped in sin, sickness and disease watching TV the idea that all my problems stemmed from the father fracture and Father God healing my heart was the only solution. So I prayed... Weeks later, still in my little apartment, still all by myself I heard a testimony of someone "delivered" from a spirit of timidity. This time I fell on my knees - not even sure how exactly this "deliverance" business worked but I was convinced I needed it. A little more time passes and Kim and Maddy come home from GA. with a manual on healing the broken heart and deliverance from fear. (A More Excellent Way)They also had some contact numbers but we needed to just see if we were going to survive 2005 before getting our fix in 2006.

On January 15, our first visit to Kingdom Harvest Church Jane gave me a better rhyme. Pick up sticks in 2006 - I began rubbing the stick of faith with one of obedience and a fire sure enough started. The healing Hand of the Lord God Almighty began doing some deep, deep work and pretty soon I was up dancing in the aisles. And Praise the Holy Name of Jesus, on this past Tuesday morning Jehovah Shalom told me to stop praying that my heart be healed but rather accept the promise that God Is my Heart and expect that through His Righteousness and Sanctification that I am receiving the confidence to claim the authority of the Blood of my Lord Jesus Christ to demand His Spirit manifest and demonstrate God's Love in my life.

Oh yeah, Revelation upon revelation is continuing now that the past is rapidly being cleared. My life has been redeemed and the Holy Spirit is expanding every moment I give Him into the ever expansive eternity of Heaven. He is also giving me some insight into the near future which is the main reason I sat down to write...

I turn to Jesus, acknowledge once again the tremendous Gift of those things He suffered so that I might be healed and because every morning He gives me something new, my prayer became a demand that even though I had spent all this time in the Holy Presence of God thru His Spirit, I

wanted to see His Face and I for the first time, I requested that He give me a Word that I could actually take to the Father which neither could be mocked by the enemy nor returned onto me void.

I had never been quite so bold so I had to take a really deep breathe of the Spirit before opening my Bible to John 11:14, 15. Kim gave me a bible that is filled with articles written by Spirit filled people and someone named E. M. Bounds illuminated the verse with "...faith gathers strength by waiting and praying. Patience has its perfect work in the school of delay..."

J2W support team celebrate with me that your prayers are working miracles in my life. I will continue to update and ask for support and guidance.

Now a new car, drove to J2W meeting by myself for the first time April 2, 2006. Praise God taste and see what the Lord has and IS doing. Amen!

I love you all from the Heart of God,

Esther (the betrothed of the King)

p.s. As of March 4, 2006 Esther was unable to drive, did not have a vehicle, and rode with Kim and Maddy to our meetings. God not only gave her a vehicle she is able to drive as far as Bedford from way East Dallas by herself. Getting stonger, Day by Day! Praise The Lord. Esther had MCS/EI and allergic to many things from food to environment. But that is PAST, and as you can see the Lord is faithful when press in to HIM and seek our answers. Doctors and drugs only kept her sick. The Word of God, prayer and deliverance- Faith and Obedience set Her free! Amen!
